MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Activities Report - Language School

25X1A9a 1. In response to our query to NE regarding future Greek language
25X1A8a requirements, [redacted], [redacted] 25X1A8a
[redacted], informed us that he has a definite need for
a Greek capability in the Language School -- despite the fact that
we currently have no students in that language -- and hopes to be
able to articulate specific requirements shortly.

2. This week we received a sample kit from a company which is
capitalizing on the convenient size of cassettes to offer language
training to people at home. The kit includes a book, workbook, 28
cassettes, cassette recorder with headset, and guidance via mail for
the student. We are evaluating the material and the concept to see
if it might be of use to us in responding to requests for self-study
courses.

25X1A9a 3. We received two foreign language typewriters this week, one
with a Cyrillic alphabet keyboard and one for Serbo-Croatian. These
machines will be useful as we begin to work on the revision of our
basic Russian course. Since [redacted], Training Assistant for the
German and Slavic Departments, speaks Russian natively, we are optimistic
that she will be able to teach herself touch-typing with the new key-
board.

25X1A9a 4. [redacted] briefed
25X1A9a [redacted] from OER, who is preparing to teach a course at
Headquarters in Spanish. The emphasis will be on reading, but
speaking is to be included. He will be using the new Programmatic
25X1A9a Spanish materials. [redacted] observed classes and plans to return
for consultation after looking over the materials. He will be
teaching six students.

7. [] CS/ISD, called me the other day to state that [] had expressed an interest in the IS assignment of aliases to students without registering the aliases with ISD. Today, I agreed with [] et. al. that we would begin a process of getting all of our student aliases from ISD. I further agreed that if this process should prove cumbersome we would review it to insure the most efficient system consonant with the security interests of the Agency.
